

A box plot visualization on a light gray background with a white grid. The x-axis is labeled with values 0, 5, 10, 15, 20, and 25. The box plot is centered around 5, with a median line at approximately 4.5. The box extends from approximately 2 to 6. A thick black vertical line is drawn at the median. Data points are overlaid on the plot, colored in cyan, purple, red, green, and black, showing a right-skewed distribution. The plot includes a thick black vertical line at the median and a horizontal line extending to the right, indicating the range of the data.
